

UVA is Thriving.

We stand with UVA President Jim Ryan.

13,000+ alumni, students, parents, faculty, staff, and friends of UVA signed our letter in support of the University's independence, values, and progress under President Ryan's leadership.

Below is the letter signed by thousands of alumni, students, parents, faculty, staff, and friends in proud support of the University of Virginia.

A small, unrepresentative group of alumni is running a coordinated campaign to undermine UVA's leadership and reputation through misinformation and partisan attacks. They say they want to restore Jefferson's vision, but their approach undermines the very ideals of free inquiry, reasoned debate, and honor that Jefferson championed. Their tactics — lies, personal attacks, and public disrespect — stand in direct opposition to the Honor Code and the values that define UVA.

We want to set the record straight: UVA is thriving — and the overwhelming majority of alumni are proud of the progress being made under President Ryan's leadership.

- **The University is near the end of a historic capital campaign, "Honor the Future," which will lay the foundation for a successful future at UVA. Officially launched by President Jim Ryan in 2019, the campaign exceeded its \$5 billion goal 18 months early, with the support of more than 250,000 individual donors.**
- **More than \$1 billion from the campaign will support future education and research in the form of scholarships and professorships.**
- **We were ranked #1 in the 2025 College Free Speech Rankings by the Foundation for Individual Rights and Expression (FIRE).**
- **We were ranked #1 for financial aid among public universities — for the fourth year in a row.**
- **We are 1 of only 2 public universities that meet 100% of demonstrated financial need.**
- **We have the highest 4-year graduation rate of any public university.**
- **We are ranked #3 in the nation for best value among public universities.**
- **We developed and released the "Statement on Free Expression and Free Inquiry," endorsed by the Board of Visitors, and launched the Democracy Dialogues series to model civil discourse and debate.**
- **Our Business and Law Schools are ranked #1 among publics.**
- **Since 2018, undergraduate applications are up 60% — including a 75% increase in applications from first-generation students in the past four years.**
- **This year, 10,000 first-generation students applied to UVA.**
- **We exceeded \$500 million in external research funding for the first time in UVA history.**
- **Our faculty are conducting important, pioneering research in fields as varied as pediatric speech disorders, vascular disease, data science, quantum physics, and the value of marriage.**
- **We have produced more Rhodes Scholars than any other public university, aside from the military academies.**
- **Our student-athletes have earned 35 national championships, including five straight titles for women's swimming and diving.**
- **UVA Wise now has one of the largest endowments among small public liberal arts colleges, and its enrollment is rising fast. 80% of the students receive financial support, and more than 50% are first-generation students.**

Unlike the false claims and distortions being circulated by a small group of alumni to disparage our University, these accolades are objective measures of the health and success of the University under President Ryan. And they are validated by the sustained support and interest UVA earns from alumni, faculty, students, and prospective Wahoos. Close to 50% of our 275,000 living alumni contributed to the capital campaign — a powerful show of support for the University, its leadership, and its Great and Good vision for the University as articulated in the 2030 Plan.

The University boasts one of the highest retention rates in the nation. And over 60,000 prospective students applied last year for a spot in a first year class of 3,500. Those are facts for all of us to celebrate, and a clear indication that the University is headed in the right direction under the right leadership.

Of course, UVA isn't perfect. No university is. But the answer to imperfection is engagement — not sabotage. Now is the time to stand up for the University we love.

We, the undersigned alumni, students, parents, faculty, staff, and friends of the University of Virginia, believe the open exchange of ideas is foundational to education, democracy, and our mission as a university. We view the Honor Code not as a relic, but as a living commitment to act with integrity and respect. We urge the Board of Visitors to defend the reputation of the University and President Ryan against misinformation and partisan attacks using every resource at its disposal.

UVA is Thriving.

We stand with UVA President Jim Ryan.

13,000+ alumni, students, parents, faculty, staff, and friends of UVA signed our letter in support of the University's independence, values, and progress under President Ryan's leadership.
